Taxpayers' Union-Curia Poll: June 2026

Here are the headline results for June's *Taxpayers' Union – Curia* Poll:

Party	Support	Change compared to May 2026
Labour	32.2%	↑0.3
National	30.1%	↑0.1
Green	11.5%	↑1.8
NZ First	11.4%	↓0.3
ACT	7.8%	↑1.3

Te Pāti Māori	3.1%	↓1.0
Other	4.0%	↓2.1

Labour is up 0.3 points to 32.2%, while National is up 0.1 points to 30.1%. The Greens are up 1.8 points to 11.5%, while New Zealand First is down 0.3 points to 11.4%. ACT is up 1.3 points to 7.8%, while Te Pāti Māori is down 1.0 point to 3.1%.

For the minor parties, TOP is on 3.2% (+0.4 points), Vision NZ is on 0.3% (nc), NZ Outdoors and Freedom is on 0.3% (-0.2 points), and New Conservatives are on 0.2% (-0.6 points).

[This month's results are compared to the last *Taxpayers' Union-Curia* poll conducted in May 2026.](#)

Party	Seats	Change compared to May 2026
Labour	40	↓1
National	38	↓1
NZ First	14	↓1
Green	14	↑2
ACT	10	↑2
Te Pāti Māori	4	↓1

This shows how many seats each party would win in Parliament, based on the decided vote.

Labour drops 1 seat to 40, while National drops 1 to 38.

New Zealand First drops 1 seat to 14, while the Greens gain 2 to 14.

ACT gain 2 to 10 seats, while Te Pāti Māori drop 1 to 4.

This calculation assumes there are no overhang seats for National and Te Pāti Māori. [An explainer for this assumption can be found here.](#)

The combined projected seats for the 'Government Parties' Bloc is unchanged on 62.

The combined seats for the 'Opposition Parties' Bloc is unchanged on 58.

On these numbers, the current three parties of Government would still be able to form a Government.

The Left bloc (Labour and the Greens) remain stronger on 54 seats (up 1), compared to the Right bloc (National and ACT) which are on 48 seats (up 1).

The last time either bloc commanded a majority without needing a support partner (NZ First or Te Pāti Māori) to be able to form a Government was December 2024.

Christopher Luxon drops 2.7 points to 18.8%, while Chris Hipkins drops 1.9 points to 17.1%.

Winston Peters gains 1.2 points to 12.8%, Chlöe Swarbrick gains 2.7 points to 8.1%, and David Seymour gains 2.4 points to 6.3%.

Christopher Luxon's net favourability is up 1.0 point to -19%, while Chris Hipkins' is up 6 points to -7%. Winston Peters is up 2 points to -5.0%, while David Seymour is up 11 points to -18%.

Nicola Willis' net favourability is -19%, while Barbara Edmonds' is -16%.

Media Summary Statement

This poll should be formally referred to as the “Taxpayers’ Union-Curia Poll”.

Any media or other organisation that reports on this poll should include the following summary statement:

The poll was conducted by Curia Market Research Ltd for the Taxpayers’ Union. It is a random poll of 1,000 adult New Zealanders and is weighted to the overall adult population. It was conducted by phone (landlines and mobile) and online between Thursday 04 June and Monday 08 June 2026, has a maximum margin of error of +/- 3.1% and 4.6% were undecided on the party vote question.

Notes

The scientific poll was conducted by *Curia Market Research* and commissioned by the *New Zealand Taxpayers’ Union*. The full polling report is being released exclusively to members of our *Taxpayer Caucus*. As is well known, but for full disclosure, David Farrar co-founded the *Taxpayers' Union* and previously served on its board. He is also a Director of *Curia Market*

Research Ltd.

The *Taxpayers' Union-Curia Poll* was conducted from *Thursday 04 June and Monday 08 June 2026*. The median response was collected on Sunday 07 June 2026.

The target population is adults aged 18+ who live in New Zealand and are eligible and likely to vote. The sample population is adults aged 18+ who live in New Zealand and are eligible and likely to vote who are contactable on a landline or mobile phone or online panel. 1,000 respondents agreed to participate, 700 by phone and 300 by online panel. The number of decided voters on the vote questions was 939. There were 46 (4.6%) undecided voters and 15 (1.5%) who refused the vote question.

A random selection of 7,000 NZ phone numbers (landlines and mobiles) and a random selection from the target population from up to three global online panels (that comply with ESOMAR guidelines for online research). If the call is to a landline, the person who is home and next has a birthday is asked to take part. Those who take part through an online panel are excluded from further polls on the same topic for six months.

Multiple call-backs occurred to maximise the response rate. Those who said they were unlikely or very unlikely to vote were excluded.

The poll was part of a wider omnibus survey for multiple clients. Questions on voting sentiment are asked before any other questions.

The results are weighted to reflect the overall voting adult population in terms of gender, age, and area.

Based on this sample of 1,000 respondents, the maximum sampling error (for a result of 50%) is +/- 3.1%, at the 95% confidence level. Results for sub-groups such as age and area will have a much higher margin of error and not seen as precise.

[The polling questions and the order in which they were asked can be found here.](#)

The Taxpayers' Union is 100 per cent politically independent. We are not affiliated with any political party and will never become a political party. We work with all parties, MPs or candidates that share our objectives. We work with any and all political parties and other organisations to expose government waste and low-quality government spending. Individual members have their own political involvements, but as an organisation the Taxpayers' Union is vigorously independent in promoting the interests of New Zealand taxpayers.
